

Superprint 4425*

Advanced printing TTY for home & recommended for business use.

Put the power of advanced technology at your fingertips with the deluxe SUPERPRINT 4425. It features direct connect with two built-in telephone sockets and advanced calling features like auto-busy redial, three way calling, and TTY transfer. Call progress tells you if the phone you are calling is ringing or busy. Auto-Answer takes messages for you when you are unavailable.

The 32k memory lets you save hundreds of telephone numbers, memos, and Auto-Answer messages by name. You can personalise greeting messages, memos, and outgoing auto-Answer memos. Convenient arrow keys make it easy to review information saved in memory or the existing conversation.

Turbo Code lets you control the speed of your conversations and enjoy real-time communication with other turbo code TTYs. It also lets you interrupt one another. Smart features designed for your convenience are included. The TTY Announcer lets hearing people know you are on the line by voicing TTY call, "please use text telephone." The User-programmable Relay Voice Announcer tells hearing callers to use a TTY or call using relay, and gives the phone number for your relay service. Auto ID lets everyone you call know that you are using a TTY. This can be a lifesaver in an emergency. Perfect for businesses or people who rely on TTYs all the time; this deluxe TTY has it all!
