

Oricom TP1100*

Loud and Clear Amplified Telephone

The TP1100 features ground breaking sound shaping technology to make conversations louder, clearer and easier to understand.

With up to 30 decibels of amplification and adjustable tone control it is the ideal solution for those with mild-to-moderate hearing loss and for use in noisy environments.

Other useful features include a flashing ring indicator, 12 one touch memories and an extra loud ringer.

With the TP1100 conversing is made easy.
